Mississippi Casinos Profit MGM Mirage, Others

Filed in [MGM Mirage \(MGM\)](#) on Jun.22, 2009

MGM Mirage ([MGM](#): 5.92 **-9.89%**) is among the casino gambling operators happy to hear good news from the Gulf Coast. State-licensed casinos in Mississippi bounced back in May after a disappointing April.

MGM has been looking for buyers for its Mississippi gaming venues, including the Beau Rivage Casino. The company is still short on liquidity, and does not want to sell any of its Las Vegas Strip properties.

Mississippi casinos won almost \$20 million more in May than April, signaling a possible bottom to the recession. While the \$224.3 million taken in this year was almost \$10 million shy of last year's take, the numbers are improving.

MGM officials say they are accepting bids on the Biloxi casinos as well as the MGM Grand Detroit, but are not desperate to sell and will reject lowball offers.
